

"We Can Make Your Automotive Dreams A Reality"

Thank you for visiting the Classic Cars Southeast web site. We hope you will enjoy this brief tour of our facility via the internet and trust you will make plans soon for a personal visit to see, first hand, one of the very best collections of classic vehicles in the southeast.

The facility is located in Lebanon, Tennessee, about 30 miles east of Nashville. We buy, sell and restore investment quality American antique, classic and muscle cars. Our "all-indoor" "museum-quality" showroom is a "world-class" facility for the most discerning car enthusiast, usually containing around fifty vehicles at any given time. We are considered an attraction and anyone can visit the showroom for a \$5 admission fee Monday through Friday from 9AM – 4PM. It is common for various car and motorcycle clubs to use our facility as a destination for their club cruise-ins and we welcome all groups.

Our showroom has been the back drop for various photos & videos tied in with the entertainment industry and it has been included in several TV productions. This exposure has included special segments with the NBC network, Nashville Public Television, Charter Cable, SPIKE TV, and Country Music Television Canada. Additionally, numerous articles have appeared in local, regional, national and international publications previewing our inventory or focusing on special events and visitors at the facility. Please visit the "PUBLIC RELATIONS" link to review various media activities.

This exposure, coupled with vast Internet promotion, has helped our company acquire world wide recognition from true American automobile enthusiasts around the globe. In addition to the interest demonstrated by car lovers throughout the United States, American classic and muscle cars have evolved into a true world wide phenomenon. Our vehicles have been exported to numerous international destinations such as Denmark, Canada, Italy, Australia, and the Middle East.

Not only does Classic Cars Southeast have one of the southeast's largest world-class showrooms, we also have a state-of-the-art classic car restoration center. Any automotive project can be completed in this 10,500 sq. ft. facility where our professional staff can deliver a full service maintenance program from minor tune-ups and engine service to a full-blown "frame-off" restoration. Cars placed in our showroom have been evaluated by the restoration center's top notch technicians to ensure all "for sale" vehicles are in the best condition possible.

Again, thank you for taking time to visit with us. Please let us know if we can ever be of assistance with your classic car needs, whether it involves purchase or restoration. We look forward to seeing you soon.
